

The Educators Academy is an outstanding opportunity to help educators become comfortable using parks and other outdoor environments as extended classrooms for students. Programs are interdisciplinary, featuring proven hands-on, minds-on, discovery techniques in real world environments. Programs integrate California State Content Standards and State Frameworks, and are fun. You'll love these easy-to-follow activities with

results you can see through student interest and learning. Your satisfaction is guaranteed!

The Regional Parks Foundation and East Bay Regional Park District are committed to giving educators the knowledge and skills to use parks and other outdoor environments as extended opportunities for student exploration and study. The Educators Academy helps accomplish these goals.

UNIVERSITY REQUIREMENTS

The Educators Academy provides opportunities to earn one and three graduate level academic units from California State University, Hayward, Extended and Continuing Education. Nine summer classes and one fall class provide educator participation, which is partial fulfillment for academic quarter units.

Every class requires a written paper within two weeks of the close of each session for fulfillment of the university requirements. The field experiences and support materials will help you to develop your own learning activities

and curriculum. Sign up for university credit on the first day of class (see additional fees on enrollment form).

Independent Study:

An additional independent study unit, *EBRPD Special Project*, may be obtained for educators who design their own project (based on the content of offered classes), field test the project with students, and write a summary of the results. The independent study will require a minimum of 10 hours on your own. *Sign up for independent study on the first day of class for \$49 each.*

GENERAL INFORMATION

Enrolling in a session • If you are paying by VISA or MasterCard, you may enroll by telephone, by fax, or on-line through our WebReg at . To enroll by telephone, call **510-636-1684** between 8:30am and 4pm, Monday through Friday. Have the course numbers and your credit card ready. To enroll by mail or fax, complete the enrollment form in this brochure and send.

Refunds • Refunds are granted when a request is received by the Reservations Department at least seven days before the class begins.

Cancellation • A class may be cancelled seven days before it begins if enrollment does not meet minimum requirements. Refunds will be granted. You can help ensure that classes will not cancel by enrolling early with friends.

Class attendance • Students who do not attend the first class meeting will be dropped from the class without a refund unless EBRPD has been notified seven days in advance. Students who are taking a class for CSUH credit must attend and participate in the entire session of each class.

Transfers • Transfers from one class to another may be approved if the request is received at least seven days before the class you are enrolled in begins. You may not transfer into a class that has already begun or that is full.

Grades and credits • University credit is optional and is paid for on the first day of class. All classes taken for credit are graded, in order to receive graduate credit.

Class size • Limited. Enroll in classes early! Waiting lists will be established.

Resident/non-resident • Resident is defined as anyone who lives within our service area of Alameda or Contra Costa Counties.

Disabled •

Accommodation will be made for teachers with disabilities upon advanced request. Please ask for assistance when you register.

INCENTIVE PROGRAM

Partial scholarships • Funds are available for teachers in Alameda and Contra Costa Counties to defray costs for those in need. Call for information at 510-636-1684.

Bring a friend! • If you enroll at the same time for the same course number, you will both receive \$10 off your EBRPD fee!

In-service hours • For most school districts in Alameda and Contra Costa Counties, Educators Academy classes count toward school district in-service hours and credit.

T.O.P. teachers • Once you have completed an Educators Academy session, you are eligible for the Teacher Opportunity Program, which offers special benefits such as priority scheduling for class field trips and low-cost field trip transportation for qualifying low-income schools.

***Park'n It Summer Day Camp** • You will have the exclusive option of registering your child for camp for one day only while you are attending the Educators Academy (if your child can't do the whole week). For children entering grades 1 – 8. Please call 510-544-2554 for more information.

SPRING QUARTER

CSUH Continuing Education Graduate Credits Available

**Healthy Water, Healthy People
Water Quality Educators Guide**

To register contact Brian Brown (see below)
March 19, Saturday, 9am – 5pm

ALAMEDA COUNTY EDUCATORS! The Alameda Countywide Clean Water Program and the Water Education Foundation are looking for educators interested in educating their students and peers about the science behind water quality monitoring tests. We will be introducing you to the Healthy Water, Healthy People Water Quality Educators Guide, developed for middle and high school students by *The Watercourse*- the same folks who created the award winning *Project WET* curriculum. The 25 hands-on, science-based activities cross-referenced to the testing kits, testing kit manual, Web sites, and National Science Education Standards. The activities are designed to raise the awareness and understanding of water quality topics and issues and their relationship to personal,

public, and environmental health. The Tilden Nature Center will be hosting the event on March 19, 2005. FREE materials and an opportunity to earn a \$150 Facilitator stipend-available to all Alameda County middle and high school educators! To register or for more information, contact **Brian Brown at 916-444-6240** or e-mail him at **projectwet@watereducation.org**. No university credit available.

Location: Tilden Nature Area

Supervising Naturalist Margaret Kelley, Judy Maben & Brian Brown, CA Project WET

Fee: \$25 returned at door to participant.

Sponsored by Alameda Countywide Clean Water Program

Drawing on the Artist Within

Course #8731

April 2, Saturday, 9am – 5pm

Have you ever longed to tap into your creative, artistic side but never progressed beyond stick figures? Do you find teaching art to be intimidating? Through a series of fun exercises, we'll tap into our right brains and discover the secrets of line, shading, composition, and perspective. The afternoon will lend itself to nature journaling on a sketch hike, where we will explore the natural world around us! This class addresses

Section 2 – "Creative Expression of the California State Curriculum Content Standards" for grades K - 8. No university credit available. Correlated to state academic standards.

Location: Sunol-Ohlone Regional Wilderness, Sunol

Naturalist CAT Taylor

Fee: \$45 resident, (\$51 non-resident)

Cruising the Cosmos

Course #9280

May 21, Saturday, 2:30 – 10pm

Just what does it mean to be "The Third Rock from the Sun?" Illuminate the magic and mystery of the night sky for your students and introduce them to the lifelong joys of naked-eye astronomy. Discover the seasons of the moon and the stars, the stories and shapes hiding in the constellations, the size and structure of our heavenly neighborhood and more (fulfills Astronomy State Standards in Science). Bring sleeping bag and tent, if you like, for overnight creekside camping under the full moon. No university credit available. Correlated to state academic standards. Incentives available.

Location: Sunol-Ohlone Regional Wilderness, Sunol

Naturalists Katie Colbert & CAT Taylor

Fee: \$45 resident, (\$51 non-resident)

Project Learning Tree

Course #9281

June 18, Saturday, 9:30am-4:30pm

1 academic unit (add \$49)

For anyone who is interested in education or learning about the environment, here's your chance. PLT is an international award-winning education program focusing on worldwide forest ecology and environmental issues, and designed to reach grades K – 12. Participants receive the PLT activity guide, practice its use, and receive help with California State Standards correlation. Correlated to state academic standards.

Location: Tilden Nature Area, Berkeley
Supervising Naturalist Margaret Kelley

Fee: \$45 resident, (\$51 non-resident)

Insects and Crawling Creatures

Course #9282

June 28*, 29, 30,

Tuesday - Thursday, 9am-3:30pm

3 academic units (add \$142)

Readily available in the field and easy to keep in the classroom, insects are everywhere! You will discover the world of insects and their relatives by visiting several Regional Parks where you will collect, observe, and release insects. You'll get 101 new ideas for grades K – 5 classes and outdoor activities. You'll love insects when this class is over – guaranteed! Correlated to state academic standards.

First class location: Tilden Nature Area, Berkeley, day 1 and 2; day 3 in Briones Regional Park, Orinda

Naturalist Alan Kaplan

Fee: \$100 resident, (\$110 non-resident)

*June 28 only: one-day Park'n It Day Camp option – course #9370

Soaproot Brush & Cordage Making

Course #9357

July 3, Sunday, 9:30am – 4pm

1 academic unit (add \$49)

You'll have an opportunity to experience the nuances of Central California Indian skills by creating your own brush from soaproot bulbs, and making the string (from dogbane) used to bind the brush fibers. Extensive handouts to enhance your California Indian cultures curriculum will be shared, ideal for grades 3 – 8. Correlated to state academic standards.

Location: Coyote Hills Regional Park, Fremont
Naturalist Beverly Ortiz

Fee: \$45 resident, (\$51 non-resident)

Birds & Mammals

Course #9283

July 6*, Wednesday, 9:30am – 4pm

1 academic unit (add \$49)

These animals are all around us, even in the most urban environments. With hundreds of kinds of birds and mammals in California there is no end to the possibilities for your classroom study. At this workshop we will focus on structures, life cycles, adaptations, food chains, and basic ecology concepts. After a fun-filled day of hands-on activities and a bit of nature exploration, you will leave with materials and information that you can immediately use with your students. This class is a great way to prepare for a field trip in the parks with one of our naturalists. All activities are ideal for K – 6th grades. Correlated to state academic standards.

Location: Martin Luther King, Jr.,
Regional Shoreline, Oakland

Naturalist Jessica Sheppard

Fee: \$45 resident, (\$51 non-resident)

*Park'n It Day Camp option – Course #9371

Project Aquatic WILD

Course #9284

July 9, Saturday, 9:30am-4:30pm

1 academic unit (add \$49)

If you are a teacher who wants environmental lesson plans at your fingertips, this

“What I liked most was the knowledge and enthusiasm of the naturalist-instructors.”

Viktoria Vass,
6th Grade Teacher
Palma Ceia School

workshop is for you. The only way to procure a copy of the nationwide, award-winning Project Aquatic WILD activities book produced by Departments of Fish & Game is to attend a workshop. This fun workshop provides exciting hands-on activities that are interdisciplinary and correlated to California Academic State Standards. We will also visit Wildcat Creek to do water quality testing. Participants in this group will gain special access to the water quality kits to use with their students! Incentives available.

Location: Tilden Nature Area,
Berkeley

Supervising Naturalist
Margaret Kelley

Fee: \$45 resident, (\$51 non-resident)

Integrating P.E.

Into Academic Requirements

Course #8506

July 12*, Tuesday, 9:30am-4pm

1 academic unit (add \$49)

You've heard the news. Our kids are inactive, overweight, and unhealthy. Although mandated by State Academic Standards, Physical Education often does not receive the same priority as higher academic achievement. Myriad studies show, however, that physically active and fit kids are better, more attentive, and active students. Using a few play principles, we will learn and invent fun, attractive, inclusive, and easily adaptable ACTIVE-ities that ACTIVE-ly and simultaneously meet state standards in K – 6 science and P.E. No athletic prowess required.

Location: Tilden Nature Area, Berkeley
Naturalist Mike Moran

Fee: \$45 resident, (\$51 non-resident)

*Park'n It Day Camp option – Course #9372

Fire in Your Backyard: Friend or Foe?

Course #9358

July 16, Saturday, 9:30am – 4pm

1 academic unit (add \$49)

Wildland fire is a hot topic! It's one that will easily capture your students' interest. Spend an exciting day learning how and why wildfires burn, what you can do to make your home safer and fun methods for teaching about these issues in your classroom. We'll explore fire history in the East Bay, fire ecology, and the use of prescribed fire in the Regional Parks. Tour a fire engine, learn how wildland fires are fought, and practice some actual firefighting techniques (without the fire!). All participants will receive a copy of "Will Your Home Survive?," a guide to help improve the odds against wildfire, ideal for grades 3 – middle school. Correlated to state academic standards. Incentives available.

Location: Tilden Nature Area, Berkeley
Naturalist/Fire Officer Dave Zuckermann

Fee: \$45 resident, (\$51 non-resident)

The California Delta: It's All In How You Look At It!

Course #8505

July 19*, Tuesday, 9:30am – 4pm

1 academic unit (add \$49)

The sleepy lands and waters of the California Delta hold bold, wondrous, and diabolical secrets. Just perfect to tantalize your students into a Standards-achieving foray into mud, muck, and murderous mayhem (wetlands and food webs); political, personal, and social intrigue (water wars); the very survival and sustenance of humanity (agriculture); feather, leather, scale, and whale (wildlife); a stunning landscape of the dawn of time (geology and the physical sciences); a searing look into thousands of years of the human condition (history, social studies, a bit of lit); and the vital life-giving tethers these backwaters have thrown to the globe (physical and cultural geography)! We'll spend half our time in the classroom and the other half in the field teaching you how to teach your students about this remarkable place. Correlated to state academic standards.

Location: *Black Diamond Mines Regional Preserve, Antioch*

Naturalist Mike Moran

Fee: \$45 resident,
(\$51 non-resident)

**Park'n It Day Camp option – Course #9373*

Central California Indian Games and Toys

Course #9359

July 26*, Tuesday, 9:30am-4pm

1 academic unit (add \$49)

You'll have an opportunity to play some old-time California Indian games that you can share with your students. You'll also make two toys – one Habematolel Pomo, the other Miwok. Extensive handouts to enhance your California Indian curriculum, including games and toys, will be shared. This workshop is ideal for grades 3 – high school. Correlated to state academic standards.

Location: *Coyote Hills Regional Park, Fremont*
Naturalist Beverly Ortiz

Fee: \$45 resident,
(\$51 non-resident)

**Park'n It Day Camp option – Course #9374*

An Introduction to Central California Indian Basketry

Course #9360

July 31, Sunday, 9:30am-4pm

1 academic unit (add \$49)

Through videos, demonstrations, and hands-on experience, you'll be introduced to the multi-faceted steps involved in making Ohlone, Miwok, and Pomo-style baskets with willow, sedge, redbud, and bulrush, including the seasons and techniques of their gathering, then how to cure, size, and weave with the materials. You'll also be introduced to the intangibles of basketry through the "rules" and prohibitions that govern their making. Extensive handouts to enhance your California Indian cultures curriculum will be shared. Workshop is ideal for grades 3 – high school. Correlated to state academic standards.

Location: *Coyote Hills Regional Park, Fremont*

*Naturalist Beverly Ortiz &
Ohlone Carol Bachman*

Fee: \$45 resident (\$51 non-resident)

Project WET!

Course #9366

August 6, Saturday, 9:30am-4:30pm

1 academic unit (add \$49)

This innovative *Project WET!* (Water Education for Teachers) is the newest teacher project from the State Water Education Foundation and Water Department. This fun workshop will provide exciting hands-on activities to explore across the curriculum. It serves as an introduction to the investigation of water and its uses – from aquatic ecosystems, water conservation, and groundwater, to water pollution prevention and wastewater treatment. The Activity

Acorn Soup Making

Course #9361

August 2*, Tuesday, 9:30am-4pm

1 academic unit (add \$49)

Join Ruth Orta (Ohlone) and Naturalist Beverly Ortiz, author of a book with Julia Parker *Kashaya Pomo/Coast Miwok* about acorn making, in preparing acorn the old way using cracking stones, mortar, pestles, winnowing and sifting baskets, and stone boiling in a cooking basket. We'll also share modern methods. Extensive handouts to enhance your California Indian cultures curriculum, including Central California Indian foods, will be shared. Workshop material is ideal for grades 3 – high school. Correlated to state academic standards.

Location: Coyote Hills Regional Park,
Fremont

Naturalist Beverly Ortiz &
Ohlone Ruth Orta

Fee: \$45 resident, (\$51 non-resident)

*Park'n It Day Camp option – Course #9375

and Curriculum Guide includes them all! Correlated to state academic standards. Incentives available.

Location: Tilden Nature Area, Berkeley
Supervising Naturalist Margaret Kelley

Fee: \$45 resident, (\$51 non-resident)

FALL QUARTER

A Spider Adventure

Course #9376

September 10, Saturday, 9:30am–4pm
1 academic unit (add \$49)

Spiders are fascinating and often maligned creatures that can enhance your teaching of natural science, math, literature, and art. We'll spend the day learning about spider features and families, habitats and habits. Activities will include outdoor spider hunts, teaching aids, nature crafts, snacks, and more! You will have what you need to teach about spiders on Monday or to enhance your Halloween curriculum! The workshop is designed for teaching grades K – 6. Correlated to state academic standards.

Location: Tilden Nature Area, Berkeley
Naturalist Linda Yemoto

Fee: \$45 resident, (\$51 non-resident)

Monarchs in the Classroom, Reunion

Course # 9384

September 17, Saturday, 1pm – 4pm

This class is for former "Monarchs in the Classroom" participants who would like a short refresher course. This version will offer information about the latest Monarch research, tagging efforts, and overwintering updates. Through round table discussions you'll share classroom strategies that worked for you and we'll problem solve to maximize the success of this important science curriculum unit. Class will provide milkweed and larvae, which will allow you to kick-off the 2005 school year in a spectacular and captivating manner sure to spark your students' interest in science. We'll conclude with an optional field trip to the nursery in search of more butterfly-friendly plants.

Location: Coyote Hills Regional Park, Fremont
Naturalists Jan Southworth
& Jessica Sheppard

Fee: \$45 resident, (\$51 non-resident)

Introduction to Sustainable Lifestyles Education

Course #9367

September 24 & 25, Saturday 9:30am (Over-
night) & Sunday – 2pm
3 academic units (add \$142)

For the first time ever, teachers are invited to bring their own dependent children for a weekend of living and learning at Camp Arroyo, a "green" overnight camp. Teachers usually only get to attend Camp Arroyo with their classroom students for a 5-day, 4-night outdoor school. This camp not only provides beautiful living and learning facilities, it also serves as a tangible example of sustainable development. Learn about Ecological Building, Wild Places, Voices of the Past, Food Forests, Edible Gardens, and Worms, while your children are involved in recreational programs and team building! Food and lodging provided.

Camp Arroyo is a state of the art environmental education center and youth camp. Its goal is to introduce students to important concepts about sustainable living. The unique curriculum not only teaches students about our natural, cultural, and built environment, but also provides a healthy atmosphere to develop a sense of community. A central goal of the program is to foster critical thinking about the environment and to help develop creative solutions to issues that students will encounter throughout their lives. Through a series of fun, hands-on activities based on California State Academic Standards, Camp Arroyo's curriculum will help produce the next generation of environmental stewards and community leaders. Correlated to state academic standards. Incentives available.

Location: Camp Arroyo, Livermore
Supervising Naturalist Margaret Kelley & staff

Fee: \$120 teacher & \$30 child of teacher
resident (\$132 & \$34 non-resident)

“I loved the environment, sharing lesson ideas, the guide that we were given and learning new information about the environment.”

Linda Hubbard,
K-6 Grades Teacher
Hannah Ranch

Monarchs in the Classroom

Course #9368

October 1, Saturday, 9:30am - 4:30pm

1 academic unit (add \$49)

The distinctive Monarch is a popular insect for its beauty and fantastic overwintering behavior. This familiar butterfly is also an exceptional educational tool for the classroom. This session will provide teachers with guaranteed techniques for successful milkweed propagation and Monarch butterfly rearing. You will construct and take home your own rearing cage, complete with milkweed and larvae, to provide immediate personal learning opportunities for your students. Ideal for grades K – 5. Correlated to state academic standards. Incentives available.

Location: Coyote Hills Regional Park, Fremont
Naturalists Jessica Sheppard &
Kristina Parkison

Fee: \$45 resident, (\$51 non-resident)

Geologic and Mining History of Black Diamond Mines Regional Preserve

Course #9369

October 22, Saturday,

9am - 5pm

1 academic unit (add \$49)

In celebration of Earth Science Week, journey back in time and explore the geologic and mining history of Black Diamond Mines.

Learn techniques and discover resources for developing curricula for grade 3 and up. A visit underground into a silica sand mine, a geology hike on the surface, and a tour of historic Rose Hill Cemetery will highlight the day. Workshop is co-sponsored by the Northern California Geologic Society. Correlated to state academic standards.

Location: Black Diamond Mines Regional
Preserve, Antioch

Supervising Naturalist Traci Parent &
Naturalist Bob Kanagaki

Fee: \$45 resident, (\$51 non-resident)

Trout in the Classroom

Course #9392

November 19, Saturday, 9am – 4pm

(1 academic unit add \$49)

Through a classroom experience of hatching fish eggs and coordinated activities, students experience the value of aquatic environments, the balance that must be met to maintain and preserve California's fisheries and aquatic habitats, and how their personal actions affect these valuable resources. Instructors and students set up an aquarium in the classroom, receive fish eggs under a special Department of Fish and Game permit, and observe the fish as they hatch and develop. A fish releasing field trip to a local stream or river may culminate the experience. This is a hands-on, interdisciplinary project for grades K-12. Full completion of this workshop is required to become eligible to receive a permit to hatch fish eggs in the classroom. Topics covered include fish biology, life cycles, how to set up and maintain your aquarium, ideas for how to introduce these topics in a multi-curricular approach, and how this activity correlates to state educational standards. This training is co-sponsored by the California Department of Fish and Game, Tri-Valley Flyfishers, Golden West Flyfishers, Grizzly Peak Flyfishers, and Diablo Valley Flyfishermen. For more information, please call 415-892-0460.

Location: Tilden Nature Area
Supervising Naturalist Margaret Kelley &
Ethan Rotman, CA Dept. of Fish & Game

Fee: \$25 resident, (\$29 non resident)

EBRPD Special Project

June 18 through October 22

This is offered as an adjunct to each session. An additional independent study unit, "EBRPD Special Project," may be obtained for educators who design their own project (based on the content of offered classes), field test the project with students, and write a summary of the results. The independent study will require a minimum of 10 hours on your own. Sign up for independent study on the first day of class for \$49 each.

ADDITIONAL EDUCATIONAL RESOURCES

Professional, degreed, experienced EBRPD Naturalists provide exemplary programs for school and youth groups, adults, and families. They are available for individual counseling on natural history and accompanying activities. Teachers and group leaders may apply for weekday programs three times per year: the first Monday in August for autumn and early winter; the first Monday in December for late winter and spring; and the first Monday in May for summer programs. Call the EBRPD Visitor Center of your choice.

Weekend and public weekday programs are announced in our newsletter, *Regional in Nature*, which is delivered to Alameda Newspaper Group subscribers in Alameda County and Knight-Ridder newspaper subscribers in Contra Costa County. It can be obtained at Park District Visitor Centers or by calling EBRPD headquarters at 510-544-2200, or downloaded from www.ebparks.org/events.htm. It is published every other month.

Nature Nearby is a bi-monthly newsletter featuring East Bay Regional Park District programs, activities, and articles written by EBRPD's interpretive, recreation, and aquatics staff. Inside you'll find a handy pullout calendar publicizing programs from one of our six Visitor Centers or the recreation and aquatics units. If you'd like to receive a current newsletter, please call 510-544-2550, email us at naturenearby@ebparks.org, or download *Nature Nearby* from www.ebparks.org/events.htm.

Visitor Centers display thematic exhibits and sell a variety of books, maps, and items that help teachers and students enjoy nature. Teachers will be particularly interested in *Parkland Discoveries* and *More Parkland Discoveries*. These national award-winning educator guides give suggestions for using the East Bay Regional Parks. Written by the EBRPD naturalist staff, the natural and cultural history articles and activities add a unique dimension of knowledge for park visits. Visitor Centers carry other items of particular interest to the theme of the park where they are sold.

Portable displays and study kits can be rented for use in the classroom as learning stations and as a pre- or post-study trip experience. Displays are mounted specimens arranged around themes such as Birds of the Night, Mammals of the Night, Fungi, Rattlesnakes, etc. Please call 510-525-2233 for more information.

For the Naturalists' Educational Services brochure, call one of the Visitor Centers listed below.
